

“Quenching the Thirst of Mother Earth™”

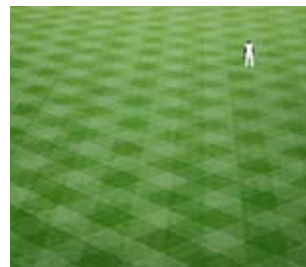

GRANULAR SUPER STIMULANT™

Immediate Source of Live Microbials, Organic Matter and Humic Acids

Granular Super Stimulant™ is a water soluble 100% organic, naturally occurring humic compost. Available in standard and fine grade this amazing compost is derived from a single source, ancient, humate peat deposit. **Granular Super Stimulant™** hosts a diverse variety of live beneficial microbes, humic acids, trace minerals, and essential amino acids. Improving soil biomass, nutrient uptake, water retention, and disease resistance, **Granular Super Stimulant™** is a complete soil conditioner that can be applied to any soil. The unique properties of **Granular Super Stimulant™** actually loosens clay soils, binds sandy soils and works wonders on all types of soils in between.

Granular Super Stimulant™ adds unprecedented levels of organic matter directly into your soil optimizing the soil's ability to reduce leaching and run-off. You will see explosive results within one to few applications. **Granular Super Stimulant™** is easy to apply with any spreader.

- Increase nutrient uptake
- Buffers PH
- Slow Release
- Increase disease resistance
- Loosens clay soils
- Binds sandy soils
- Increase pest resistance
- Increases water retention

Directions for Use:

Apply as a Topdress with any Spreader. Application Rate: 8-10 pounds per 1,000 sq. ft. Premix at a rate 10-15 pounds per 1,000 sq. ft. for trees and shrubs.

Ingredients:

• 100% Organic Peat Humus. A minimum of 65% organic matter. No Animal By-products, Sludge, Manure or Bio-Solids used in the manufacturing of this product.
