

“Quenching the Thirst of Mother Earth™”

GRO GREEN™ 6-0-0

100% Plant-Available Source of Water Soluble Nitrogen

Gro Green™ is an all natural, water soluble, slow release nitrogen fertilizer, deriving it's nitrogen from the L-Lysine amino acid. Gro Green™ is a 100% plant-available source of nitrogen for instant greening, lush vegetation and healthier soil. Providing enhanced performance, without the negative effects of synthetic nitrogen fertilizers, Gro Green™ is formulated from composted food waste such as fruits, vegetables, eggs, dairy, cereals, grains, meat and fish.

This great diversity provides humic acids as well as carbohydrates, antioxidants, and hormones, which are the essential building blocks for healthy soil. Gro Green™ provides necessary food to stimulate soil microbial population perpetuating efficient nutrient uptake to your turf, crops and plants. Mixes well with wetting agents and will not clog sprayer nozzles. There are no sludge, manure or bio-solids used in the manufacturing of this product.

- All Natural
- Water Soluble
- No salt Index
- Increase Disease Resistance
- Slow Release
- Easy To Apply

Directions for Use:

Shake Well Before Use. Use approx. 4-6 ozs. per 1,000 sq. ft. every 4-6 weeks. For initial application and heavily stressed turf use 10-12 ounces per 1,000 sq. ft. Pre-mix at a rate of 1 oz. per 1 gallon of water for plants, foliar spray and general plant applications.

Guaranteed Analysis:

Total Nitrogen (N).....6.00%
6.00% Water Soluble Nitrogen

This product is derived from L-Lysine Amino Acid, food waste compost and phosphoric acid.
