

“Quenching the Thirst of Mother Earth™”

SUPER STIMULANT™

Immediate Source of Live Microbials, Organic Matter and Humic Acids

Super Stimulant™ is a 100% organic, water soluble humate extraction. Derived from a single source, ancient humate, peat deposit, **Super Stimulant™** hosts a diverse variety of live beneficial microbes, humic acids, trace minerals, and essential amino acids. The high levels of humic acids are powerful attributes of humates that are the building blocks of healthy soil. Improving soil biomass, nutrient uptake, water retention, and disease resistance, **Super Stimulant™** is a complete soil conditioner that can be applied to any soil. The unique properties of **Super Stimulant™** actually loosens clay soils, binds sandy soils and works wonders on all types of soils in between.

Super Stimulant™ provides maximum results in an eco-friendly manner for the home gardener, yet powerful enough for the stringent demands of any institutional operation. You will see explosive results in one to few applications.

Super Stimulant™ is easy to apply, mixes well with wetting agents, and will not clog nozzles.

- Increase nutrient uptake
- Buffers PH
- Slow Release
- Increase disease resistance
- Loosens clay soils
- Binds sandy soils
- Increase pest resistance
- Increases water retention

Directions for Use:

Shake Well Before Use. Use approx. 4-6 ozs. per 1,000 sq. ft. every 4-6 weeks. For initial application and heavily stressed turf use 10-12 ounces per 1,000 sq. ft. Pre-mix at a rate of 1 oz. per 1 gallon of water for plants, foliar spray and general plant applications.

Ingredients:

• Organic Peat Humus, 6% Humic Acid
No Animal By-products, Sludge, Manure or Bio-Solids used in the manufacturing of this product.
